

2026 Cornerstone Partnerships

The [Financial Empowerment Network](#) exists to build a statewide financial empowerment network rooted in equity, care and collective power – where every Washingtonian has the resources, relationships, and respect needed to live with dignity and achieve their dreams.

Since 2006, FEN has been a leader in the field of financial empowerment in Washington State. FEN provides training, support and technical assistance to direct service providers offering financial wellness programs, products and services to the un- and under-banked, low-income, and otherwise historically marginalized individuals and communities. Through our support, our partners increase their own financial knowledge, their access to financial tools, and their connections to resources that increase their ability to support their clients’ financial wellbeing.

We are a convener and connector, and our work ripples out into the community through the providers we train and support. This year, we will serve 500+ individuals through 20 events. FEN partners will:

- learn skills and information they can use in their own personal finances
- feel better able to address the financial concerns of their clients
- be better connected to the resources available to support themselves and their clients

Join us! Your engagement and investment strengthens our network of partners across Washington state.
